

Telehealth Learning Series

for SUD Tx and Recovery Support Providers

Telehealth Learning and Discussion Series for SUD Treatment and Recovery Support Providers

The [Addiction Technology Transfer Center \(ATTC\) Network](#), the [Center for Excellence on Protected Health Information \(CoE-PHI\)](#), the [National Consortium of Telehealth Resource Centers](#), and the [Center for the Application of Substance Abuse Technologies \(CASAT\)](#) at the University of Nevada - Reno (UNR) are facilitating a FREE, national online discussion and resource sharing opportunity for substance use disorder (SUD) treatment providers and peer support specialists faced with transitioning their services to the use of telephone and videoconferencing methods in response to COVID-19 social distancing guidelines.

The series will feature:

- Live, one-hour sessions every week for at least 5 weeks via Zoom video conferencing (we may add more weeks based on demand!). Each session will include at least 45 minutes of peer-to-peer conversation and information exchange and “Top Five” tips and lessons learned
- Access to experienced providers and others with expertise in providing services using videoconferencing (telehealth) and telephone for SUD treatment and recovery support
- Access to professionals with expertise in protected health information and 42CFR Part 2
- Training tools, checklists, and other relevant resources

Who Should Attend?

SUD treatment providers, including peer specialists, counselors, administrators, peer support officers, and others providing and/or interested in providing care to patients/peers via videoconferencing platforms (telehealth) and/or telephone.

Registration

No registration required for the live sessions. Simply click on the zoom link at the appropriate date and time to join the discussion. No CEs will be provided for these sessions.

When?

- Weeks of March 30 through April 27. See the table below for specific dates and times for live sessions.
- Join one, two, three ... or all of the live sessions! Combine your live session attendance with review of the online resource page (coming soon). Customize the experience to meet your needs. No prerequisites or required attendance

- **Please note:** This series is meant to be a facilitated discussion between providers and subject matter experts. It is not a webinar series. For this reason, **we have limited each session to 300 individual logins.** **Log in early** to increase the chance you will get in.
- If you do not get into the room, please know that **each session is the same, discussion and question and answer format.** We established 8 sessions to spread out participation.
- **If you do not get in, please plan to log into a later session.**
- We will be creating an "FAQ" document based on the discussions in each section, so **please check back on this website for additional resources.**

*This learning series is made possible by the following organizations**

***DISCLAIMER:** Information exchanged and views expressed during these virtual sessions reflect the professionals' conducting the session best understanding of the science or promising practices and should not be seen as directives. We encourage all participants to reflect on the context discussed during the learning series and to take that information to colleagues and/or supervisors for further discussion especially in the context of state rules or regulations. Professionals conducting these sessions will not make recommendations regarding specific video conferencing platforms or other technologies. In addition, content related to Privacy and Security and 42 CFR Part 2 presented during these sessions should not be construed as legal advice and participants are directed to discuss recommendations with their agency's legal counsel. Finally, participants will be referred to SAMHSA resources that provide additional information regarding delivering services virtually.
